

Actividad CSS

Alonso Bobadilla – Ingeniería Civil Informática

1. Fondo agregado y frase “En sus marcas!”

The screenshot shows a code editor on the left displaying the file `actividad.html` and a browser window on the right showing the result. The HTML code includes a `<body class="fondo">` tag, which applies a background image of a crowd of people. Overlaid on this background is the text "En sus marcas!" in white.

```
<!DOCTYPE html>
<html lang="es">
<head>
    <meta charset="UTF-8">
    <link rel="stylesheet" href="css/actividad.css">
    <title>En sus marcas, listos, ya!</title>
</head>
<body class="fondo">
    <div>
        <h1>En sus marcas!</h1>
    </div>
</body>
</html>
```

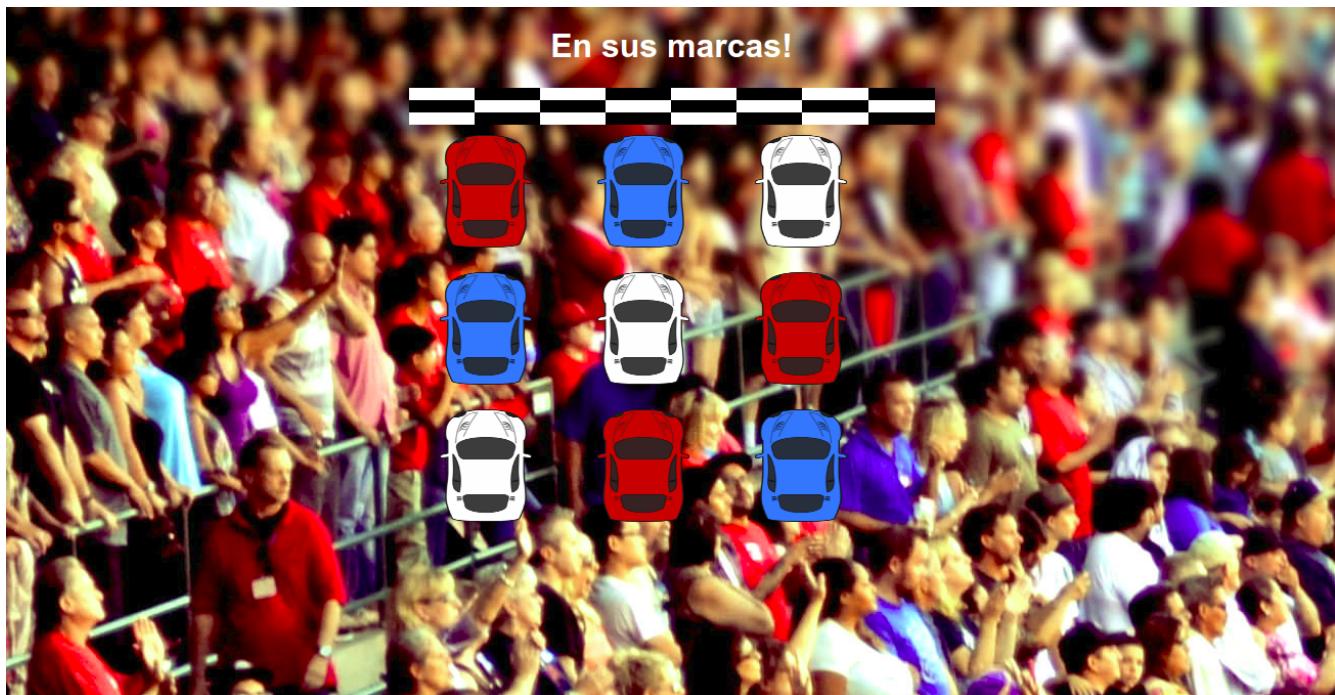

2. Usando tres div, cada uno con una tabla se crea la línea de partida

The screenshot shows a code editor on the left displaying the file `actividad.html` and a browser window on the right showing the result. The HTML code uses three `<div>` elements, each containing a `<table>` with a `cellspacing="0"` attribute. The first table has two columns, the second has four, and the third has two. All cells are styled with the `.black` class, giving them a black background color. This creates a horizontal line of black cells across the top of the image, representing a starting line.

```
<body class="fondo">
    <div>
        <h1>En sus marcas!</h1>
    </div>
    <div id="carretera">
        <div>
            <table cellspacing="0">
                <tr>
                    <td></td>
                    <td class="black"></td>
                </tr>
                <tr>
                    <td></td>
                    <td class="black"></td>
                </tr>
                <tr>
                    <td></td>
                    <td class="black"></td>
                </tr>
                <tr>
                    <td></td>
                    <td class="black"></td>
                </tr>
            </table>
        </div>
        <div>
            <table cellspacing="0">
                <tr>
                    <td class="black"></td>
                </tr>
                <tr>
                    <td></td>
                    <td class="black"></td>
                </tr>
                <tr>
                    <td></td>
                    <td class="black"></td>
                </tr>
                <tr>
                    <td></td>
                    <td class="black"></td>
                </tr>
            </table>
        </div>
    </div>
```

3. Se agregan los autos

```
50 <div>
51     
53     
55     
57
57     
59     
61     
63
63     
65 </html>
```

4. Agregado color de fondo de la pista (gris)

```
7     <style>
8         #pista {
9             background-color: grey;
10            }
11    </style>
```

```
55 <div id="pista">
56     
58     
60     
```
